VA TENNESSEE VALLEY HEALTHCARE SYSTEM

Nashville and Murfreesboro, TN

ASHP-Accredited

AMBULATORY CARE PGY2

PROGRAM DESCRIPTION

The VA Tennessee Valley Healthcare System Ambulatory Care PGY2 residency offers a broad range of core and elective rotations to help the residents customize their year based on their specific goals, interests, and previous experience. Residents will also have the opportunity to develop, implement, and manage their own pharmacotherapy clinic and/or may choose to develop a new outpatient clinic based on the interests of the resident and needs of pharmacy service. At completion of the residency, our goal is for our residents to be able to excel in a variety of clinical practice settings, to be a leader in their future practice site and in the profession, and to be well prepared to achieve board certification in ambulatory care pharmacy.

The resident will have the opportunity to participate in the following clinics:

- ◆ Primary Care Pharmacotherapy (PACT) Clinic
- ◆ Anticoagulation Clinics
- ◆ High-Risk Group Diabetes Clinic
- ◆ Lipid Clinic
- ◆ Home-Based Primary Care
- ◆ Outpatient Chronic Pain Management
- ◆ Emergency Department
- ◆ Dementia Clinic
- ◆ Hepatitis C Clinic
- ◆ Cardiology/Heart Failure Clinic
- ◆ Psychiatry
- ◆ Additional experiences available based on resident interest

Longitudinal opportunities include teaching/precepting PGY1 residents and students from numerous schools of pharmacy, non-formulary review, pharmacy administration, and completion of a formal research project.

Positions Available:

Two (2) Ambulatory Care PGY2 Residents

Pharmacy Practice Match ID#: 648465

BENEFITS

- ◆ Current PGY2 resident salary is \$44,522
- ◆ Eligible for medical and life insurance as a VA employee – multiple plans available
- ◆ Thirteen (13) days of annual leave
- ◆ Thirteen (13) days of sick leave
- ◆ Ten (10) paid federal holidays
- ◆ Tuition & travel assistance to ASHP Midyear Meeting and/or American College of Clinical Pharmacy annual and spring meetings

ABOUT VA TENNESSEE VALLEY

The VA Tennessee Valley Healthcare System (VA TVHS) is a dual campus system with the Nashville campus and Alvin C. York campus in Murfreesboro; however, our care extends beyond the middle Tennessee area with eleven community based outpatient clinics (CBOCs) ranging from northern GA to southern Kentucky. The Murfreesboro campus is approximately 40 minutes from the Nashville campus. VA TVHS provides care to over 80,000 veterans with 350 acute care and geriatric beds, dozens of primary care teams, and various specialty clinics. This dual campus system is affiliated with colleges of medicine at Vanderbilt University and Meharry University.

The pharmacy service of VA TVHS has affiliations with University of Tennessee, Belmont University, Lipscomb University, Samford University, and Union University. In FY2014, Clinical Pharmacy Specialists at VA TVHS precepted over 150 students from these various colleges of pharmacy, providing ample opportunities for residents to gain teaching and precepting experience. Residents also teach a selective Ambulatory Care course for UT College of Pharmacy and have the opportunity to obtain a teaching certificate through Lipscomb University College of Pharmacy with projects and teaching throughout the year.

The progressive Pharmacy Service consists of over 30 Clinical Pharmacy Specialists practicing at the top of their pharmacy license. VA TVHS has pharmacists in a wide variety of setting includes acute care, critical care, transplant, long-term care, mental health, and, of course, ambulatory care with many specialty clinics.

In the ambulatory care setting, VA TVHS has over 15 pharmacists who work under a scope of practice, managing diabetes, hypertension, hyperlipidemia, chronic pain, dementia, anticoagulation, Hepatitis C, and/or geriatrics. This allows the PGY2 residents to have more rotation opportunities than there are months in the year and allows them to see a wide variety of specialties to prepare them for a successful career in clinical pharmacy.

Not only can residents appreciate the clinical opportunities this PGY2 residency affords, they will also be able to experience why Nashville is one of the fastest growing cities in America. From concerts by local artists at the Bluebird Café to must-see landmarks like the Ryman Auditorium and Centennial Park, to some of the best food in the country, residents can enjoy some of the best things about living in Nashville.
